Summer School Rules:
Must be on time to class on a daily basis. You may only miss one class, only with prior approval, via email, after that, you will be dropped from the summer school (SS) roster and be put on the bottom of the wait list. Teacher will give you a break during the SS day when requested as long as the privilege is not abused. You will only be enrolled in class(es) approved by the Santa Teresa HS Counseling Staff during the 2014-15 school year. Once you are done with a class, you can either continue on with another pre-approved class or if you are not eligible for another class, be released from summer school upon completion of all approved classes. Summer School hours are as follows: 8:00am to 1:30pm

Classroom:
While in SS, you will be required to work on all assignments, quizzes in order to take the end of the unit test. Any unit work done at home will be accepted, but no test will be authorized at home; all tests must be taken during regular summer school hours. Each summer school class should be completed in approximately eight school days. After the seventh SS day, a reminder will be given and after the eighth SS day, the class will have to be completed or your SS spot will be given to another student on the waiting list and you will have to make other arrangements to complete the cyber high course. (This is to ensure timely completion of each course and to give as many students an opportunity to remedy their pre-approved courses for this summer school session of Cyber High.)

Cyber High Rules:
Tests may only be taken twice and after two failures, you will be removed from that class and cannot retake the class. It is recommended that you take all the lessons in each unit, but must pass at least 80% of the sections in each unit before you can take the test. All tests must be taken in class with at least one hour remaining in the day (the suggested time amount for each test.) The instructor will release the tests to you. All cyber high classes must be completed within a thirty (30) day window.

Materials:
You may bring in outside materials to assist your cyber high class unit lessons. You will be provided with a Chromebook to do all required work for your class. This being said, you may not use any outside information or notes during the unit exams once approved by your instructor.

Questions:
Please email your teacher with any questions you may have about any aspect of the Cyber High Summer School program. If any of the information is updated, students will be notified within the class or through Santa Teresa’s schoolloop website. See the information on the instructors below.
